

Viasat Residential Legal Disclaimers

This document is for informational purposes only and is not providing legal advice. You should contact your attorney to obtain legal advice regarding any particular service offering or promotion and the use of these disclaimers.

For all ads that reference Viasat Unleashed plan, unlimited data plans, or Connection 25 plan:

Viasat Unleashed plan:

Include this disclosure if No Contract is mentioned:

*No Contract option is not available in all locations and only available to new Viasat customers. No contract means there is no minimum service term commitment. You may cancel at any time.

Include this disclosure any time Viasat Unleashed plan is mentioned:

The Viasat Unleashed plan comes with unlimited data. If at any time your data usage is trending to exceed the "typical usage" of a residential customer on our network, you may have reduced priority during times of network congestion resulting in slower speeds. Typical usage represents the data usage of 70% of residential customers on our network. Please visit www.viasat.com/legal to view Viasat's Unlimited Data Policy for more details.

Unlimited Data Plans:

Depending on the specific unlimited data service plan available at your location, after you use the following amount of High-Speed Data, you will continue to receive unlimited data (referred to as "Standard Data"); however, Viasat may prioritize Standard Data behind other customers during network congestion, which will result in slower speeds: Bronze 12 (35 GB, 40 GB or 80 GB); Silver 12 (45 GB); Gold 12 (65 GB);.

Viasat Essentials Plan:

After you use 150 GB of High-Speed Data during your monthly billing period, you will continue to receive unlimited data (referred to as "Standard Data"); however, Viasat may prioritize Standard Data behind other customers during network congestion, which will result in slower speeds. For complete details, see the Unlimited Data Policy, which you can view at www.viasat.com/legal.

Connection 25 Plan:

After you use 1,000 GB of High-Speed Data, you will continue to receive unlimited data (referred to as "Standard Data"); however, Viasat may prioritize Standard Data behind other customers during times of network congestion, which may result in slower speeds.
